

Last Revised: 05/15/25

BOARD POLICY

Subject: Interconnection of Distributed Resources

Objective

Establish requirements and conditions under which DEMCO members may install Distributed Generation (DG) and/or Net Metered resources.

Policy

DEMCO shall establish and provide members, in accordance with 7 CFR 1730, Subpart C and Louisiana Public Service Commission rules, a written standard policy relating to the Interconnection of Distributed Resources (IDR) having an installed capacity of not more than 300 kW for commercial facilities and 25 kW for residential facilities at the point of common coupling. This policy and its attachments shall be readily available to members via the company's website www.demco.org. This information shall be made available to any and all DEMCO members.

Responsibility

The Chief Engineering & Operations Officer shall be responsible to see that this policy is enforced and shall ensure all information concerning Distributed Generation and/or Net Metering is kept current, revised as needed, and made available to DEMCO members.

The Manager, Quality and Compliance shall have the authority to audit all aspects of this policy.
