Date:

Project Name:

Project Location:

DEMCO appreciates the opportunity to provide Electric service to \_\_\_\_\_ (developer).

DEMCO views this as a great asset and opportunity for the community and the Parish we are proud to work with you as part of economic development in this area.

To initiate the design process for providing electric service DEMCO will need to receive accurate electric load data and a projected timeline of the project along with the items reference below for residential subdivisions. DEMCO will procure material, begin designing the electric layout with the Engineering and Design team.

An authorized signature(s) on this letter will confirm your acceptance of commitment for DEMCO to begin this process. This agreement is subject to approval of final costs associated with the project.

DEMCO looks forward to uniting with you on your new development while being an economical and reliable source of energy now and in the future.
